

Rodent Droppings Cleanup Safety Checklist

Do not dry sweep or vacuum rodent droppings. Follow current public-health guidance and the product label.

Prepare

- ☐ Keep children, pets and unnecessary occupants away.
- ☐ Ventilate when safe and appropriate for the space.
- ☐ Wear intact gloves and read the disinfectant label.

Wet-clean

- ☐ Thoroughly wet the evidence without splashing.
- ☐ Wait for the full label contact time.
- ☐ Collect with disposable towels, bag securely and clean the surrounding surface.

Afterward

- ☐ Remove gloves safely and wash hands.
- ☐ Monitor for fresh droppings, sounds, gnawing and food damage.
- ☐ Escalate heavy, inaccessible or ventilation-system contamination.
